

The Honorable Gavin Newsom

Governor of California
1303 10th Street, Suite 1173
Sacramento, CA 95814

RE: Letter of Support for AB 1835

Dear Governor Newsom,

On behalf of the undersigned organizations, we write to you to urge you to support AB 1835 (Weber and Quirk-Silva) in order to ensure that funding provided under the Local Control Funding Formula (LCFF) for our highest-need, most vulnerable students is actually directed to support them.

During this year's budget negotiations, you drew a line in the sand to ensure that \$2.9 billion in federal CARES Act funds were allocated based on the very formula of LCFF Supplemental and Concentration grants that this bill fights to protect. Your leadership recognized the particular needs of low-income students, English learners and foster youth (targeted students) during this period of COVID-19-related learning loss and distance learning.

The current state budget provides almost \$10 billion in LCFF Supplemental and Concentration grant funds. Yet, not all of those funds will actually reach the targeted students unless you sign this bill. In a November 2019 audit, the State Auditor found that under the current guidance, districts are allowed to basically redistribute unspent LCFF Supplemental and Concentration Grant funds for any purpose in future years, and not for the purpose that you and the Legislature intended.

"Until the state ensures that districts spend all supplemental and concentration funds to benefit the intended student groups, and that they provide clear, accessible information regarding that spending ... the intended student groups may not receive the services necessary to close the state's persistent achievement gaps," State Auditor Howle explains.

This bill simply implements recommendations made by the State Auditor.

This bill will maintain the broad flexibility that districts have to use Supplemental and Concentration funds to support targeted, schoolwide and districtwide purposes that benefit the targeted student. Some may argue that this bill creates too much work for districts, but this bill doesn't ask districts to do any more work reporting on funding than your budget just asked districts to do for six different grants provided in your budget to address learning loss and COVID-19-related-activities. Districts know how to do this type of reporting, and according to an analysis by Los Angeles County Office of Education, the costs to implement this bill will be minimal.

The state has an essential role to play: making it clear that supplemental and concentration dollars are always to be used to support targeted students will help safeguard resources to meet their unique needs, assist efforts to address the learning loss that has occurred and ensure the promise of LCFF in times of increases and reductions.

For these reasons, we encourage you to sign AB 1835.

Sincerely,
The Undersigned Organizations

cc: **The Honorable Assemblymember Weber**
